

List of Tables

Chapter One

Table 1.1 : Results of Assessment	10
-----------------------------------	----

Chapter Two

Table 2.1 : : National Mean Values – Grade 05 Study (1994)	21
--	----

Chapter Three

Table 3.1 : Requirements Considered in Sampling	33
Table 3.2 : The Proportional Sample Across Provinces (Targeted)	33
Table 3.3 : The National Sample of Students	34
Table 3.4 : Proportional Sample across strata (Achieved)	34
Table 3.5 : Sample of Principals, Sectional Heads, Teachers and Parents	37
Table 3.6 : Nature of the Achievement Tests	37
Table 3.7 : The Composition of the Questionnaires	38

Chapter Four

Table 4.1 : Distribution of Scores in First Language	44
Table 4.2 : Mean Values in First Language	47
Table 4.3 : Distribution of Scores in Mathematics	49
Table 4.4 : Mean values in Mathematics	52
Table 4.5 : Distribution of Scores in English - All Island Frequency	55
Table 4.6 : Mean Values in English Language	57
Table 4.7 : Significance of Differences Between Means by School Type, in the Three Subjects	59
Table 4.8 : Significance Differences Between Means in the Three Subjects by Gender	65
Table 4.9 : Significance of Differences Between Means – by Medium of Instruction	67
Table 4.10 : Frequency Distribution of scores Tamil Language – Plantation area schools	72
Table 4.11 : Frequency Distribution of scores Tamil Language- other Tamil schools	72
Table 4.12 : Significance of Differences Between Means in the three subjects, by Location	74
Table 4.13 : Relative Differences in Mean Values in First Language, Mathematics and English Language – by Provinces	76
Table 4.14 : Percentage Achieving Mastery in First Language	78
Table 4.15 : Percentage Achieving Mastery in Mathematics	80
Table 4.16 : Percentage Achieving Mastery English in Language	80
Table 4.17 : Mean Values in Earlier Studies	84

Table 4.18 : All Island Composite Index Based on Provincial Mean Values	85
Table 4.19 : All Island Composite Index Based on Percentage Achieving Mastery, by Province	88
Table 4.20 : Rank Order Based on Mean Values in First Language	92
Table 4.21 : Rank Order Based on Mean Values in Mathematics	92
Table 4.22 : Rank Order Based on Mean Values in English Language	92
Table 4.23 : Rank Order Based on Percentage Achieving Mastery in First Language	93
Table 4.24 : Rank Order Based on Percentage Achieving Mastery in Mathematics	93
Table 4.25 : Rank Order Based on Percentage Achieving Mastery in English Language	93
Table 4.26 : Composite Index for Districts - Based on Mean Values	95
Table 4.27 : Composite Index for Districts – Based on Percentage Achieving Mastery	97
Table 4.28 : Correlation Between Subjects	99
Table 4.29 : The roh Values Calculated Using the Scores Obtained in this Study	100

Chapter Five

Table 5.1 : Some of the Variables that Inter-relate with Home Background	112
Table 5.2 : Some of the Variables that Inter-relate with School Background	113
Table 5.3 : Some of the Variables that Inter-relate with Student Background	114
Table 5.4 : Coefficient Values of Regression Analysis	115
