

List Of Figures

Chapter Three

Figure 3.1 : Sample of Students - by Province	35
Figure 3.2 : Sample of Students by School Types - All Island	36
Figure 3.3 : Sample of Students by Location - All Island	36
Figure 3.4 : Sample of Students by Gender - All Island	36
Figure 3.5 : Sample of Students by Medium of Instruction - All Island	36

Chapter Four

Figure 4.1 : All Island Distribution of Scores - First Language, Mathematics and English Language	42
Figure 4.2 : Distribution of Scores in First Language - (All Island Histogram)	44
Figure 4.3 : Achievement in First Language - Frequency Polygon for All Island Scores	45
Figure 4.4 : Achievement in First Language - Ogive for All Island Scores	45
Figure 4.5 : Achievement in First Language Western Province (Frequency Polygon)	46
Figure 4.6 : Achievement in First Language - Central Province (Frequency Polygon)	46
Figure 4.7 : Achievement in First Language - Southern Province (Frequency Polygon)	46
Figure 4.8 : Achievement in First Language - Northern Province (Frequency Polygon)	46
Figure 4.9 : Achievement in First Language - Eastern Province (Frequency Polygon)	46
Figure 4.10 : Achievement in First Language -North Western Province (Frequency Polygon)	46
Figure 4.11 : Achievement in First Language - North Central Province (Frequency Polygon)	46
Figure 4.12 : Achievement in First Language - Uva Province (Frequency Polygon)	46
Figure 4.13 : Achievement in First Language - Sabaragamuwa Province (Frequency Polygon)	46
Figure 4.14 : All Island Percentage Achieving Mastery - First Language sub-skills	48
Figure 4.15 : Distribution of Scores in Mathematics- (All Island Histogram)	49
Figure 4.16 : Achievement in Mathematics - Frequency Polygon for All Island Scores	50
Figure 4.17 : Achievement in Mathematics - Ogive for All Island Scores	50
Figure 4.18 : Achievement in Mathematics - Western Province (Frequency Polygon)	51
Figure 4.19 : Achievement in Mathematics - Central Province (Frequency Polygon)	51
Figure 4.20 : Achievement in Mathematics - Southern Province (Frequency Polygon)	51
Figure 4.21 : Achievement in Mathematics - Northern Province (Frequency Polygon)	51
Figure 4.22 : Achievement in Mathematics - Eastern Province (Frequency Polygon)	51
Figure 4.23 : Achievement in Mathematics - North Western Province (Frequency Polygon)	51
Figure 4.24 : Achievement in Mathematics - North Central Province (Frequency Polygon)	51
Figure 4.25 : Achievement in Mathematics - Uva Province (Frequency Polygon)	51
Figure 4.26 : Achievement in Mathematics - Sabaragamuwa Province (Frequency Polygon)	51
Figure 4.27 : All Island Percentage Achieving Mastery - Mathematics	53

Figure 4.28 : Distribution of Scores in English Language - (All Island Histogram)	55
Figure 4.29 : Achievement in English - Frequency Polygon for All Island Scores	55
Figure 4.30 : Achievement in English - Ogive for All Island Scores	55
Figure 4.31 : Achievement in English Language - Western Province (Frequency Polygon)	56
Figure 4.32 : Achievement in English Language - Central Province (Frequency Polygon)	56
Figure 4.33 : Achievement in English Language - Southern Province (Frequency Polygon)	56
Figure 4.34 : Achievement in English Language - Northern Province (Frequency Polygon)	56
Figure 4.35 : Achievement in English Language - Eastern Province (Frequency Polygon)	56
Figure 4.36 : Achievement in English Language-North Western Province (Frequency Polygon)	56
Figure 4.37 : Achievement in English Language -North Central Province (Frequency Polygon)	56
Figure 4.38 : Achievement in English Language - Uva Province (Frequency Polygon)	56
Figure 4.39 : Achievement in English Language – Sabaragamuwa Province (Frequency Polygon)	56
Figure 4.40 : All Island Percentage Achieving Mastery - English Language	57
Figure 4.41 : Relative Differences in All Island Mean Values – by School Type	59
Figure 4.42 : All Island Percentage Achieving Mastery in the Three Subjects - by School Type	60
Figure 4.43 : Relative Differences in All Island Mean Values in First Language, Mathematics and English Language, by Gender	64
Figure 4.44 : Percentage of Pupils Achieving Mastery in Three Subjects, by Gender	65
Figure 4.45 : Relative Differences in All Island Mean Values – by Medium of Instruction	67
Figure 4.46 : All Island Percentage Achieving Mastery in the Three Subjects by Sinhala Medium and Tamil Medium Students	68
Figure 4.47 : Mean values in Tamil Language - (in respect of the four groups)	69
Figure 4.48 : Percentage achieving mastery in Tamil Language - (in respect of the four groups)	69
Figure 4.49 : Mean values in Mathematics -(in respect of the four groups)	69
Figure 4.50 : Percentage Achieving Mastery in Mathematics - (in respect of the four groups)	69
Figure 4.51 : Mean Values in English Language - (in respect of the four groups)	70
Figure 4.52 : Percentage achieving mastery in English Language (related to the four groups)	70
Figure 4.53 : Achievement in Tamil Language - Plantation area Schools (Frequency Polygon)	71
Figure 4.54 : Achievement in Tamil Language - Other Tamil schools (Frequency Polygon)	71
Figure 4.55 : Achievement in Mathematics - Plantation area Tamil Schools (Frequency Polygon)	72
Figure 4.56 : Achievement in Mathematics – Other Area Tamil schools (Frequency Polygon)	72
Figure 4.57 : Distribution of Scores in English Language - Plantation area Tamil Schools (Histogram)	73
Figure 4.58 : Distribution of Scores in English Language- Other Area Tamil schools (Histogram)	73
Figure 4.59 : Relative Differences in means values – by Location	74
Figure 4.60 : All Island Percentage of students achieving mastery in the three subjects - by location	74

Figure 4.61 : Means values in First Language, Mathematics and English Language – by Province	75
Figure 4.62 : Percentage achieving Mastery in First Language, Mathematics and English Language- by Province	76
Figure 4.63 : Average (Mean) Values of the Test Scores and Percentages Achieving Mastery	77
Figure 4.64 : Percentages Achieving Mastery in First Language	79
Figure 4.65 : Percentages Achieving Mastery in Mathematics	81
Figure 4.66 : Percentages Achieving Mastery in English Language	82
Figure 4.67 : Percentages Achieving Mastery, Near Mastery and Non-Mastery in three subjects	83
Figure 4.68 : All Island Composite Index Based on Provincial Mean Values	86
Figure 4.69 : All Island Composite Index Based on Percentage Achieving Mastery, by Province	87
Figure 4.70 : Mean Values in First Language - by Province	89
Figure 4.71 : Mean Values in English Language - by Province	89
Figure 4.72 : Mean Values in Mathematics - by Province	90
Figure 4.73 : Percentage Achieving Mastery in First Language - by Province	90
Figure 4.74 : Percentage Achieving Mastery in Mathematics - by Province	91
Figure 4.75 : Percentage Achieving Mastery in English Language - by Province	91
Figure 4.76 : Composite Index for Districts - sed on Mean Values	96
Figure 4.77 : Composite Index for Districts - Based on Percentage Achieving Mastery	98

Chapter Five

Figure 5.1 : Assumed Structure of the Variables Influencing Home Background	106
Figure 5.2 : Assumed Structure of the Variables Influencing School Background	107
Figure 5.3 : Assumed Structure of the Variables Influencing Student Background	108
Figure 5.4 : Latent Variables Related to Home Background	109
Figure 5.5 : Latent Variables Related to School Background	110
Figure 5.6 : Latent Variables Related to Student Background	111
Figure 5.7 : Path Diagram on Factors Influencing Learning Achievement	117
